## Oreo Cookie Exemplar

You've saved \$2.75 and you finally decide to go shopping! You go to the store and see a sale on Oreo cookies. The cookies cost 25¢ each. Since you just love Oreo cookies, you decide to spend all your money on them!!! How many cookies could you buy? Would you have any money leftover?

### Challenge 1:

You have \$4.45 in your pocket and you go to the store again. Because you like to drink milk with your Oreo cookies, you decide that with every three cookies you buy, you will buy one container of milk for 36¢. How many cookies + containers of milk can you buy for \$4.45? Would you have any money leftover? (remember: cookies are 25¢ each)

### Challenge 2:

You've saved \$1.75/week for a whole year! (that's 52 weeks) The cookies cost 25¢ each. How many cookies could you buy? Would you have any money leftover?
