

Name: _____

What's the Deal?

A small bag of M&M's has 25 pieces of candy in it and costs 75¢. A large bag of M&M's has 50 pieces of candy and costs \$1.45. Which is a better deal for the money? Explain your thinking:

What's the greatest number of large bags of M&M's you could buy with \$5, and how much change would you get?
