

Name: _____

Birthday Math

Write your birthday digits in order: If your month or day has only one digit, put a zero in front of it: for example if you were born on July, 6th, 1997, write:

0	7	0	6	1	9	9	7
---	---	---	---	---	---	---	---

My Birthday:

--	--	--	--	--	--	--	--

What digit is in the hundred's place of your birthday?

What digit is in the thousand's place of your birthday?

Ask two more people what their birthdays are and write down the digits for their birthdays in the boxes below:

--	--	--	--	--	--	--	--

--	--	--	--	--	--	--	--

Find the sum of all three birthdays and write it here:

If you were a year YOUNGER, would your birthday number be greater or smaller? Explain why: _____
